

MobeX[®] touch

Unified Communication in One Device

Work from Anywhere
Work with MobeX

Your smart desk phone

Experience the power of MobeX at your fingertips. The MobeX Touch T10 isn't just a phone, but a communication hub expertly designed to integrate your hardware with your telephone system utilising the MobeX softphone software. Powered by the robust Qualcomm M685 chip, this handset delivers lightning-fast performance and its stunning 10.9-inch HD touchscreen display provides a vibrant and intuitive interface for easy navigation. As a Google-certified device, the MobeX Touch unlocks a world of possibilities. Effortlessly integrate your favourite business applications like CRMs, calendars, and project management tools directly onto the device, available from the Google Play Store. Customise the MobeX Touch to match your unique business needs.

With its powerful features and seamless MobeX integration, the MobeX Touch T10 empowers you to connect and collaborate more effectively than ever before. The MobeX integration opens the doors to all the MobeX functionality giving you access to your local and cloud phonebook, visual BLFs, call history, notifications and more.

Enhanced Productivity

The MobeX Touch T10 optimises workflows by integrating with MobeX and your existing business applications.

Improved Collaboration

High-definition audio and video calls facilitate smooth communication and collaboration, regardless of location.

Elevated Mobility

Have the flexibility to work from anywhere, ensuring uninterrupted communication and access to your critical business information.

Unleash Mobility

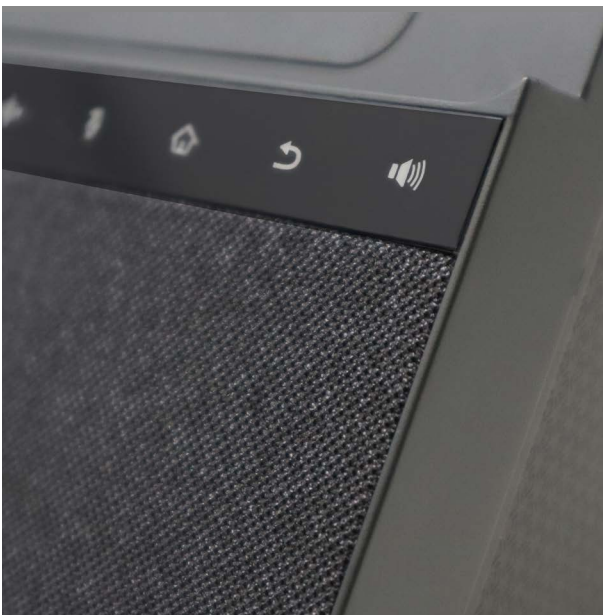

Navigate effortlessly through menus, access Mobex and other business applications with a tap, and enjoy crystal-clear telephone and video calls with colleagues and clients alike. Easily detach the tablet from the base for increased portability, allowing you to take your communications on the go.

Connectivity options include a USB-C port for convenient charging and data transfer. The Mobex Touch T10 comes equipped with a tray supporting a microSD card up to 256GB, whilst the Mobex Touch T10 LTE supports one standard 4G SIM card and one micro SD card, providing flexible storage and connectivity options.

Effortlessly Connected

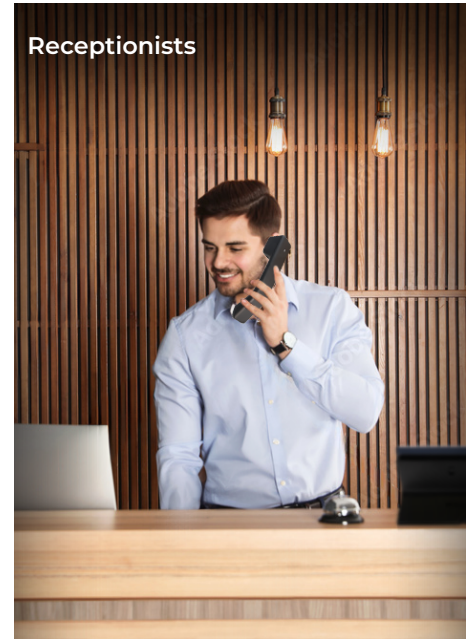

Experience crystal-clear communication with the Bluetooth receiver. This ergonomically designed handpiece features a weighted base for stability and LED indicators displaying incoming calls, if users are on a call, and if the device is connected to Bluetooth. The receiver is equipped with intuitive controls, including a one-touch key for quick dialling or selecting features, a dedicated call control key, and convenient volume buttons. With a 10-metre Bluetooth range, experience the freedom to move around while staying connected.

A Solid Foundation

The Mobex Touch T10 base unit provides a secure and stable foundation for your tablet. Enjoy clear and powerful audio through the integrated 2x3W speakers, ideal for hands-free calls and multimedia playback. The base unit features intuitive controls, including buttons to enable Bluetooth, activate speakerphone mode, and tablet navigation. A magnetic plate ensures the tablet remains securely docked while maintaining a comfortable viewing angle. The base unit also includes convenient ports for powering the tablet while docked, an ethernet port for wired network connectivity, and a USB port for connecting external devices such as keyboards, USB drives, and more.
